

Frequently Asked Questions

1. What is the difference between the GVR Metropolitan District and a Homeowners Association?

Metropolitan Districts are local governments, subdivisions of state government, that are established to provide any number of public services including water and sanitation, parks and recreation, fire protection, architectural control, safety, public infrastructure and other services as allowed by the District's Service Plan. Metropolitan Districts are typically funded by a combination of property taxes, grants, fees and charges. A Homeowners Association is a non-profit association of property owners that typically enforces residential covenants, manages common property and provides services common to the property owners. A Homeowners Association is typically funded by dues, fees and penalty charges. The functions and services that a metropolitan district can provide are significantly greater than those that a homeowners association can provide.

2. Am I located in a Homeowners Association?

In the currently developed Green Valley Ranch area, if you live south of 48th Avenue you belong to the Master Homeowners Association for Green Valley Ranch, and may also belong to one of the neighborhood homeowner associations, known as sub-associations.
